

Step 1: Set Up Your GoCheck Kids Account

Find the "GoCheck Kids Invitation" email in your inbox and click the invite link to the web portal.

Create a user account and password. This will be your login for both the app and the web portal.

Step 2: Set Up the Device

Connect to WiFi through the iPhone settings. Set up a device passcode.

Tap the GoCheck Kids app icon.

Log in with your user account.

Step 3: Enter a Patient Into the Queue

Choose "Add" at the top right of the screen

Enter the Visit Date, First Name, Last Name, and DOB of the patient.

Step 4: Screen a Patient

Select the patient for screening

Start the screening test.

Follow the on-screen prompts to complete the screening test.

Immediately view the results. The results can be exported via fax or printing.

Note: Connect to WiFi after screening so that your results can upload to the web portal.

3 Tips for Screening Success

1.

For best results with photoscreening, use dim, indirect lighting.

2.

Ensure proper test distance: 40 inches for photoscreening, or 10 feet for visual acuity testing.

3.

For best results with visual acuity screening, don't obscure the screen of the device.
